EDUCATION

Indian Institute of Technology, KharagpurDec 2021 – Jun 2025
B.Tech in Civil Engineering

EXPERIENCE

Zolve Innovations Private LimitedSept 2025 – Present, Full-time
AI Engineer

- Multi-Agent Infrastructure & Enterprise AI Systems
- Built a 4-stage NLP-to-SQL pipeline on Presto/Trino using RAG over 5K+ query logs, improving SQL accuracy from 68% to 87%
 - Built LangGraph-based multi-agent framework supporting 20+ configurable workflows, tool routing & agent state management

AI-Powered User Acquisition Systems

- Built scraping pipeline on LinkedIn, MyVisaJobs, Yocket via API reverse-engineering & Selenium, aggregating 400k+ potential leads

Department of Artificial Intelligence, IIT KharagpurAug 2024 – Dec 2024, Internship
Research Intern

- Fine-tuned RoBERTa to score data persuasiveness & improved scam detection across highly persuasive synthetic v2 by 65%

PROJECTS

Multi-Agent Infrastructure & Enterprise AI Systems — Zolve

- Engineered MCP client layer with stdio/SSE transports, connection pooling & session recovery, achieving 95%+ workflow reliability

Speech Emotion Recognition

- Classified 8 emotions from audio with Librosa features and a CNN, reaching 72% accuracy

Data Analysis of Retail Sales

- Performed time series decomposition and ARIMA forecasting on 3 years of sales data

POSITIONS OF RESPONSIBILITY

General Secretary Maintenance | Rajendra Prasad Hall of Residence | IIT Kharagpur [Jul '24 - Apr '25]

- Managed administrative affairs and student welfare for 850+ boarders as an active member of the executive 13-member Hall Council
- Led a 300-member team for Illumination 2024, securing 2nd place out of 22 participating halls in IIT Kharagpur's largest cultural event
- Achieved over 20% reduction in the hall's total budget of INR 0.9 Million through strategic financial planning and resource allocation

COURSEWORK INFORMATION

Academic Courses: Probability and Statistics | Advanced Calculus | Linear Algebra, Numerical and Complex Analysis | Elec
Basic Electronics | Safety Engineering and Management | Computational Chemistry | Programming and Data Structures (th
MOOCs: Data Structures and Algorithms | Data Science Mentorship Program | Data Analysis with Pandas and Python

SKILLS

Programming Languages: C, C++, Python, SQL
Libraries & Frameworks: Numpy, Pandas, LangChain, LangGraph, Selenium
